

Its Wicked to Waste

Every time you spend money without a suitable return you're doing yourself and others a wrong.

In buying clothes, for instance, why spend too much?

We can show you where it's folly to pay more than \$10 to \$20 for a suit.

Whether you want style, fit, material, wear or price, Clothcraft will give you absolute worth of your money.

If you come in you'll be convinced.

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

CLEAN UP AND PAINT UP - A CONTINUOUS CAMPAIGN

Suggestions For Making Our Town a Better Home Town—Chairman of National Bureau Says Start Now and Keep It Up the Year Round.

NCE Hercules diverted the river to renovate the Angean stables "Clean Up" has had its place in the world's vernacular. With Spring the desire to refurbish comes subconsciously into the hearts of men and women, and communities. But without direction and sustained effort the expression of that desire, in the form of the ordinary "Clean Up Day" or "Week," is apt to result in a super-

ficial sally against filth. Years ago Allen W. Clark, a St. Louis editor, made up his mind that this natural "Clean Up" instinct could be turned to account, that it could be developed into a real campaign working toward definite ideals and accomplishing permanent results. And so, in May, 1912, Mr. Clark founded the National "Clean Up and Paint Up" Campaign Bureau, with headquarters in St. Louis. He hoped that a thorough-going movement, national in its scope take the place of the "annual bath" idea as expressed in the old-time "clean

And the campaign's educational influence should work steadily the year 'round and year after year, automatically eliminating many nuisances caused formerly by carelessness or thoughtiessness of property owners

A Suggestion For Our Town.

The methods for accomplishing all of

this suggested by the National Bureau are well illustrated by a brief description of the local campaign organization in St. Louis. With various adaptations this St. Louis plan has been found practicable in any city, no matter how

iarge or smali. The entire campaign is under the direction of the Continuous St. Louis "Clean Up and Paint Up" ('ampaign Committee, of which Charles M. Talbert, director of streets and sewers, is chairman. On this committee are various civic and business leaders, including the leading elub women of the city. Each member of the general committee is chairman of a subcommittee responsible for some definite department of the campaign's activity. The Director of Streets and Sewers is chairman of the committee on "Refuse Clean-up," the chief of the Fire Department is chairman of the committee on fire prevention and the head of the Health Department is chairman of the committee on housing reform. A partial list of these campaign com mittees, will notation of some of the objects of each, follows:

ONKEYS imitate. Sheep follow the leader. And most of us-men, women and children alike—are prone to do the same. Imitation is bad for the monkey and bad for the sheep if the example followed is bad. But it is good for both if the leadership is safe. Just so with us mortals. Inspired by environment, we can think great thoughts and do things worth while. Depressed by environment,

we can sink into the depths of despondency But, thanks to human powers of initiative, we can shape our environour own interests linked with those of our neighbors that when we im-

Right there the monkey in man asserts itself. Today your neighbor fixes up his yard, removes rubbish, plants flowers, trims his hedge, paints his house.

Tomorrow your own place looks sick. You never noticed before that little cleaning up and painting up would accomplish so much in making home life happy and healthy through the long outdoor months of summer. So you get busy with the pruning shears, the rake, lawn mower and garden hose. You start a painter working on your house and outbuildings. Forthwith you, your wife and the kiddles begin to realize more fully the "joy of living" in the good old summer time.

Day after tomorrow other neighbors will begin to perk up their premises and their persons. Then others will follow their example, and so the spirit of spring's regeneration will spread from house to house and

But let's not wait for this creeping regeneration of our town. Let's organize immediately a continuous "Clean Up and Paint Up" campaign and make the refurbishing a thorough community movement. Our officiai community can help, and so can each civic organization, and the

business men, and the women, and the children. Let's make "Clean Up and Paint Up and Keep It Up" our slogan and

WHAT PAINT WILL DO.

Ask any real estate man what pereating of value is added to a house y a fresh coat of paint and you will e surprised at the size of the figure he | iong life aiways come with records of will give you. Too many householders have the habit of putting off painting

until a house fairly screams for it. Good paint applied at regular intervais, not too far apart, is the true economy in that it not only actually raises the value of the house by improved appearance, but through preservative ingredients prevents and arrests decay. The man who lets his house become

Also have a few hundred acres of

desirable mineral rights to sell. It is not worth while to speak of he water on these farms, as it is well known that Rockcastle is one of the best watered counties in this state or any other state. Al of these farms are hardy to churches and schools and the county has under consideration, 4 turnpikes out of the town of Mt Vernon, north and south, east and west. Several miles have been let and work already begun. Those farms are on the pike road leading south from Mt. Vernon, on the waters of Dry Fork and Skeggs Creek and most of this land is limestone land and fine producing and grass land. Will sell on easy terms any part of this land or all as a whole. Anyone wishing to buy land, either for investment or home, will do well to call and go over this land, and get my price and terms. For the benefit of those who might know these farms and locate them better by name, I will name them by their former owners: Tract No known as the Sand Spring coal fields: Tract No. 2 known as the Will Price farm at Sand Spring; Tract No. 3 known as the old Tommy Graves valley farm; Tract No 4 known as the K. J. McKinney tarm: Tract No. 5 known as the W. G. Nicely farm at Hansford; Tract No. 6 known as the Mat Deboard and later the Albert Hamlin farm near Level Green.

Why We Are Opposing A Government Armor Plant

To the People:

Some people say that the very fact that the Bethlehem Steel Company is so aggressively fighting the proposal to build a Government armor plant is conclusive proof that the Company is seeking to assure for itself the "vast profits" derived from private manufacture.

The fact is that armor making is the least profitable feature of steel manufacture.

The reason we oppose a Government plant is very simple. It is this:

Even though there is but little profit in the making of armor, we have invested over \$7,000,000 in our armor plant;

That plant is useless for any other purpose; if a Government plant is built the .sefulness of our plant is destroyed.

It would be good business for us to make armor for the Government at any price over and above the actual shop cost, RATHER THAN SACRIFICE OUR ENTIRE INVESTMENT.

We do not seek to save big profits; our purpose is very frankly to save our armor plant—itself built solely for the use of the Government—from going to the scrap heap.

To do that, we are prepared to agree for any period to any terms of manufacture which the Federal Trade Commission shall say absolutely protects the Government of the United States.

BOWEL COMPLAINTS

IN INDIA. In a lecture ut one of the Des

Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a botte of Chamberlam's Cholic, Cholera and Diarrhoea Remedy with him and he beleived that it saved his life. This remedy is used successfully in India both as preventive and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Oblainable everywhere.
